## About me:

Hello, I'm Hamza Sourani, a Full-Stack Developer with over 3 years of experience specializing in ReactJS, NextJS, and NodeJS with Express. I craft sleek, responsive web applications that enhance user engagement and provide robust backend functionality, seeking to work in a company with a long-term vision, a professional team, and growth opportunities.

## Education:

ITE University of Aleppo, Bachelor in Software Engineering, 2018 - 2022

## Experience:

### *Backend & Frontend Developer, Levant, Jan 2022 – Oct 2023*

- Adapted flexibly to changing project requirements and deadlines while maintaining high-quality work.
- Utilized project management tools like Notion and ClickUp for remote project tracking.
- Mastered ReactJS to craft fluid, eye-catching animations that elevate the user experience, ensuring each interaction is both visually striking and intuitively functional.
- Leveraged the power of NextJS to develop high-performance, server-rendered web application
- Developed scalable RESTful APIs with ExpressJS, enhancing data exchange efficiency.
- Implemented JWT for secure authentication and authorization.
- Designed optimized database schemas with TypeORM for improved performance.
- Demonstrated expertise in GitLab for collaborative development and code management.

### *Frontend Developer, UluTech, Jun 2020 – Jan 2022*

- Integrated third-party APIs seamlessly for additional functionalities.
- Developed interactive user interfaces using ReactJS with TypeScript.
- Implemented state management using Redux for efficient data handling.
- Designed and implemented responsive UI components for optimal user experience.
- Ensured cross-browser compatibility and accessibility standards in frontend development
- Mastered ReactJS to craft fluid, eye-catching animations that elevate the user experience, ensuring each interaction is both visually striking and intuitively functional.

## Skills:

- Proficient in **JavaScript**, **TypeScript**, **React**, and **Next.js**.
- Good knowledge of back-end using: **Node.js**, **Express.js**, and **MongoDB**.
- Comfortable with various styling solutions like **CSS**, **Tailwind**, and components libraries such as **Material UI** and **Radix**.

- Skilled at **React query** data fetching, and **Redux** state management.
- Good understanding of **SEO** standards and semantic **HTML**.
- Built multiple projects with multiple languages using **18next**.
- Excellent working with form handling libraries such as **Formik** and **React Hook Form** with **Yup** schema validation.
- Experienced with **Git** version control.
- Worked with collaboration tools like **Click Up** and **Jira**.
- Basic knowledge of **UI/UX** using **Figma**

**Language:**

- Arabic (Native)
- English (Conversational)

**Hobbies:**

- Competitive Programming: Engage in competitive programming to enhance problem-solving skills and algorithmic thinking.
- Music: Enjoy music as a way to relax and find inspiration outside of coding.
- Gaming: Enjoy playing video games to unwind and enhance problem-solving abilities.
